Description				
B I U Description				Characters (with HTML): 33/4000 🦼
				Save Save and Close

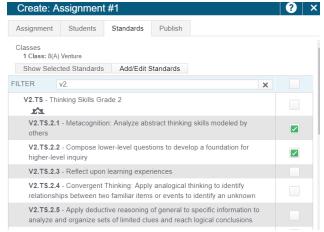

- h. Click on the Standards tab
- i. Select the Add/Edit Standards tab and filter down to the standards you want to add to your assignment

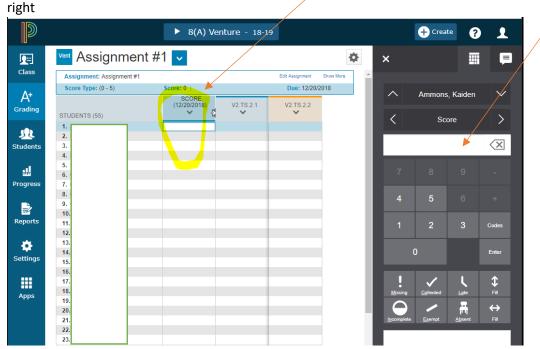

\*\*To filter: Second grade standards all start with V2., third grade starts with V3., etc. You want to only select the standards below each major category – For Example: V2.TS – Thinking Skills Grade 2 is a major category and should not be selected for an assignment.

- j. Check the box next to each standard you want to attach to the assignment.
  - i. You can select 1 (one) standard or as many as you want
- k. Click Save and Close to save your assignment

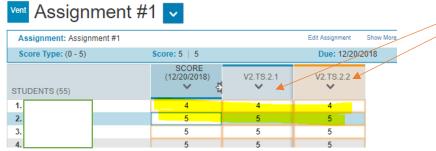

I. Your Standards tab should look similar to this:

3. When you score the assignment click inside the Score column and enter the grade via the Score Inspector on the

- 4. Enter the scores.
- 5. As you change to the next student the score you entered should fill to the right into the Standards attached to the assignment automatically

6. Click Save Scores button at the bottom
